

GUARDIAN MEDICAL & SAFETY

GUARDIAN MEDICAL & SAFETY LLC

CAPABILITIES STATEMENT

Veteran-Owned Small Business (VOSB) Certified

COMPANY OVERVIEW

Guardian Medical & Safety LLC is an elite Veteran-Owned Small Business (VOSB) headquartered in Scott, Louisiana. We specialize in providing professional emergency medical response, comprehensive safety solutions, and professional clinical personnel to municipal, industrial, energy, federal defense, and critical infrastructure sectors. Built on a foundation of proven emergency medicine and strict industrial compliance, we successfully bridge the operational gap between occupational safety and advanced lifesaving intervention.

CORE CAPABILITIES

Certified Medical & Safety Professional Staffing

- **Paramedics, EMTs, & EMRs:** High-readiness clinical teams certified for remote, or populated environments to provide immediate trauma intervention.
- **Hybrid Paramedic Licensed Safety Technicians:** Multi-capable personnel cross-certified in advanced life support and comprehensive OSHA/DOT/BSEE/USCG site safety management.
- **Medical Directors & Medical Review Officers (MRO):** Total regulatory drug/alcohol review, continuous clinical oversight, and robust medical protocol development.
- **Occupational Testing:** Full-spectrum DOT and Non-DOT drug/alcohol screenings, and physical exams.
- **Corporate Medical & Case Management:** Real-time workplace injury triage, medical case management, and streamlined return-to-work coordination.

SPECIALIZED EQUIPMENT & SUPPLY SALES

Advanced Clinical Logistics & Equipment Rental Fleet

- **Advanced Cardiac Life Support (ACLS) Kits:** Fully customized field setups featuring advanced airway devices, ECG/defibrillators, and critical line medications.
- **Basic Life Support (BLS) & EMR Kits:** Comprehensive trauma and initial triage response packs geared for high-risk job sites.
- **Automated External Defibrillators (AEDs):** Government-compliant public access defibrillators with turn-key tracking and preventative maintenance setups.
- **Telemedicine Deployment Kits:** Encrypted satellite/cellular-linked communication nodes delivering live video streams directly to trauma physicians.

Medical & Safety Supply Sales: Direct-to-agency distribution of OSHA-compliant personal protective equipment (PPE), automated monitoring instrumentation, mass casualty packs, and professional field dressings.

KEY DIFFERENTIATORS

- **The Hybrid Paradigm Advantage:** By combining clinical paramedics and licensed occupational safety technicians into unified single-person assets, we slash headcount logistical overhead by up to 40% for clients.
- **Military-Tested Rigor:** Veteran-led leadership guarantees strict operational security, military-grade logistical precision, and unwavering reliability in mission-critical environments.
- **Telemedicine Reach-Back Nodes:** Isolated field personnel have immediate high-definition clinical lines to board-certified ER physicians, eliminating unnecessary expensive aeromedical evacuations.
- **Turn-Key Compliance:** Fully indemnified solutions with professional liability scaling to support heavy multi-year federal contracts perfectly.
